Series 8300 - Gravity Bailer

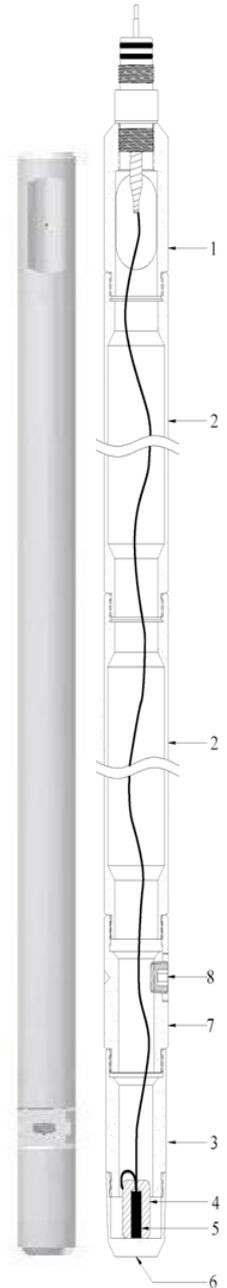

TTS Series 8300 Gravity Bailers are thin wall carbon steel tubulars used to convey cement, resin, sand, and/or other materials into the wellbore via wireline. Stainless steel material is available by special order. The standard bailer string version utilizes a blow-away aluminum bottom with blasting cap to open the lower end of the bailer string and “dump” the contents atop plugs, etc.

Every TTS manufactured bailer section is pull tested to 5000# to verify structural integrity of the weld-on ends. This is one more way TTS’ quality inspection and control procedures help to insure trouble free operations in your well.

The bailer system can become explosive-free using one of TTS’ Non-Explosive Bailer Actuators.

Ask a TTS representative for details.

Item	Description	Bailer size / Capacity / Part Number				
	Bailer OD	1-3/8"	1-5/8"	2"	2-1/8"	2-3/8"
	Capacity/10' Section	.67 gallons	.95 gallons	1.37 gallons	1.52 gallons	1.86 gallons
1A	Top Window Sub (GO)	8300-138-030	8300-163-030	8300-200-030		
1B	Top Window Sub (Schl)	8300-138-130	8300-163-130	8300-200-130		
2	10' Bailer Section	8300-138-011	8300-163-011	8300-200-011	8300-213-011	8300-238-011
3	Blast Sub	8300-138-031	8300-163-031	8300-200-031		
4	Blasting Cap Wt.	Owen p/n DMP-3500-025 or Titan p/n 7110-000-039				
5	Detonator	Owen p/n DET-3050-115 or Austin A-96L or equivalent				
6	Aluminum Bailer Bottom	8300-138-033	8300-163-033	8300-200-033		
7	Bottom Fill Sub (optional)	8300-138-032	8300-163-032	8300-200-032
